WORKSPACE SOLUTIONS

Vision

To become a leading integrated solutions company in the Kingdom of Saudi Arabia, delivering high quality construction, interior, furniture, and specialized workspace environments that combine functionality, innovation, and long term value.

Mission

We are committed to:

- Delivering projects with precision, quality, and accountability
- Creating environments that improve productivity, comfort, and user experience
- Combining technical expertise with practical execution
- Building long term partnerships based on trust and performance
- Supporting Saudi Arabia's development vision through sustainable and innovative solutions

History

Senbar-International was founded in Riyadh to deliver integrated project solutions across construction, interiors, workspace environments, and specialized fit-out — giving clients a single partner from concept to final handover.

Today, that focus has grown into a multidisciplinary ecosystem of specialized divisions:

Amer for aluminum systems, windows, doors, and facade solutions

Catchy Design for branding, visual communication, and creative support

RAJ for custom joinery, carpentry, and woodwork execution

SenSit for workspace solutions, office furniture, acoustic pods, and interior environments

This integrated structure lets Senbar-International support hospitality, commercial, corporate, and residential projects with greater efficiency, coordination, and quality control — strengthening its position as Saudi Arabia's trusted turnkey solutions partner.

03

Integrated Business Ecosystem

Specialized divisions working together under one integrated operational structure.

Through its multidisciplinary structure, Senbar-International delivers coordinated solutions across construction, interiors, workspace environments, custom manufacturing, and turnkey project execution.

04

Core Services

End-to-end solutions delivered with expertise, precision, and accountability.

01

Construction

High quality construction solutions delivered with strong planning, safety and quality standards.

02

Interior Fit-Out

Complete interior fit-out solutions tailored to functional, aesthetic, and operational requirements.

03

Joinery & Carpentry

Custom joinery and carpentry works with precision craftsmanship and attention to detail.

04

Furniture Solutions

High quality furniture solutions that combine ergonomics, design and durability.

05

Aluminum Systems & Facades

Aluminum windows, doors, and façade solutions engineered for performance and longevity.

06

Workspace Solutions

Smart workspace solutions including acoustic pods, partitions, and office systems that enhance productivity and wellbeing.

07

Turnkey Project Execution

End-to-end turnkey solutions from concept to handover with seamless coordination and accountability.

One partner. Every solution.
From concept to completion.

05

Our Workflow

A structured process that ensures clarity, efficiency, and successful project delivery.

01
Consultation

Understanding client objectives, requirements, and project goals.

02
Design

Concept development and design solutions aligned with functionality, aesthetics, and budget.

03
Engineering

Detailed technical drawings, specifications, and coordination for precise execution.

04
Production

High quality manufacturing and procurement through our specialized divisions and trusted partners.

05
Installation

Professional on-site execution with strict quality control and safety standards.

06
Handover

Final inspection, client orientation, and seamless project handover.

From concept to completion,
we deliver with precision and accountability.

06

Our Capabilities

A combination of expertise, resources, and systems that enables us to deliver complex projects with confidence.

01

Integrated Expertise

Multidisciplinary team with combined experience across construction, interiors, manufacturing, and workspace solutions.

02

Quality Assurance

Strong quality control processes and compliance with industry standards at every stage.

03

Advanced Systems

Modern tools, technology, and processes that improve accuracy, coordination, and project performance.

04

Skilled Workforce

Qualified and experienced professionals committed to safety, precision, and professional execution.

05

Trusted Partnerships

Strong relationships with reliable partners and suppliers that ensure consistency and value.

06

Project Management

Structured planning, effective coordination, and proactive management from start to finish.

07

Safety First

Commitment to the highest health, safety, and environment standards.

08

On-Time Delivery

Efficient execution and resource management that ensure projects are delivered on time.

09

Sustainable Approach

Environmentally conscious practices and sustainable solutions for long term value.

10

Innovation Driven

Continuous improvement and creative solutions that add value and enhance outcomes.

Capabilities that build confidence.
Performance that delivers results.

07

Organization Structure

A strong organizational structure built on expertise, collaboration, and accountability
